

Hey, do you know the rescue ship “iuventa”?

**Did you or do you know anybody who crossed the Mediterranean sea between 2016 and 2017 and got rescued by the rescue ship iuventa?
The iuventa crew needs your help now!
Please get in touch and tell us your story.**

What happened?

We've been doing sea rescues in the Mediterranean sea off the Libyan coast in the years 2016 and 2017. With our ship iuventa, we rescued more than 14,000 people.

We think migration is everybody's right- and there is an obligation to help people in case of emergency!

After a rescue in August of 2017 the Italian authorities took our ship, now they want to prosecute us for “human trafficking”. We have to defend ourselves, as we are facing 20 years of prison.

How can you support us?

For the defence at court, we need to prove that we acted rightfully under international law. We have to prove that we did not work together with Libyan smugglers. Therefore we need people who have been on the ship iuventa (see the picture) and who are interested in telling the story of their rescue. You can tell your name or you can choose to stay anonymous.

We are happy to hear from you,
“iuventa10”
